★ ★ ★ ★

AVES HAVE IT—This young father was one of the more than 17,500 inhabitants of the industrial town of Verrieres, Belgium, who voted recently on the question of a "United States of Europe." Result: 74 per cent. in favor of such a confederation, 21 per cent. against it and 4 per cent. noncommittal.

DIRECTS OWN RESCUE—Patrick Regan, 64-year-old Pennsylvania Railroad car inspector, grimaces with pain as he is undressed by attendants after Regan's legs were pinned beneath a freight car wheel in a Philadelphia yard recently. Regan, who directed his own rescue, had he was inspecting cars when the train apparently was moved accidentally, pinning him under one wheel. Trapped for 20 minutes, he was taken to hospital where officials said both legs were seriously injured.

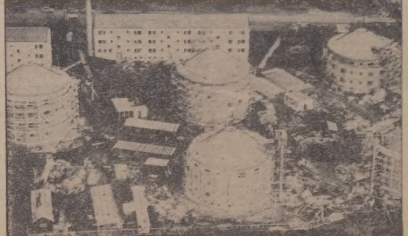

AVES IN THE SWIM—Glamorously Elsie Biernie perches on a tree, displaying her stunning leopard-skin swimsuit. Photo was taken at Miami, Fla.

MAN OF IRON—"Iron Man" Dick Carr, the Columbia University conference, who played every minute of his team's nine games, poses with an "Iron Man" of a different sort. With a total of 542 minutes of play for the 1953 season, Carr led all major players in the nation in durability.

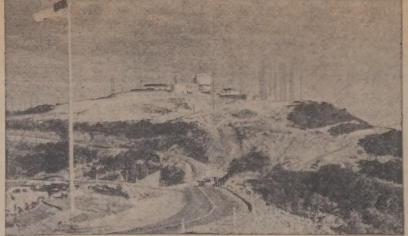

JOCHO UMLENBERS IN NEW HOME—Jocho, the bald eagle found exhausted on the ice in upper Michigan and nursed back to health with rabbit meat and whiskey, arriving at his wings in Washington's National Zoological Park after a flight (by commercial airplane) to the U.S. capital. The bird, which has a wing spread of more than six feet, was given to the zoo through the efforts of a Michigan congressman.

ROUND THE FAMILY CIRCLE—These unique circular apartment houses are under construction in Stockholm, Sweden, tonight. The new-type buildings contain 19 one-room apartments on each of their four floors, the rooms being placed fan-shape around a large, circular staircase. Each of the houses will be painted a different color.

TOOK A LITTLE WORK, BUT—Eleven-year-old Paul Mathers of Railroad City, Calif., spent 25 cents for old bicycle parts at a police station auction, and there you see the finished result—an "as-good-as-new" bike. Paul's brother, John, lends a helping hand cleaning the rear wheel.

WATCHDOG MOUNTAIN—An "around-the-clock" sky watch is kept to guard the San Francisco Bay area from surprise air attack. The 25 million U.S. Air Force radar centers on Mount Tamalpais pick up unidentified planes on radar screens and relay the information by radio to fighter headquarters at nearby Hamilton Field. The spherical structure at center stands 60 feet high and houses radar antennas. Wooden poles at right are 80-foot-high radio antenna towers.

ASTOUNDS EXPERTS—Few thought he could master America's powerful Tony Trabert, but Australia's Lewis Rodd outwitted the expert by winning a five-set singles battle to keep the Aussies in the running. His triumph brought his match even against Trabert to a 4-2 count. His tennis twin, Ken Rosewall, went on to beat Vic Seixas giving Australia a 2-1 victory in the Davis Cup tie.

THREE PRIZE PUPILS of their own school are these shapely stars of "How to Succeed in Business Without Really Trying" in CinemaScope. Left to right they are (as if you didn't know) Marilyn Monroe, Lauren Bacall and Betty Grable.

FUR GOES BAKEN!—Evidently discussing the comparative quality of their furs are mini-coated Alex Tatum and a white poodle by the name of "Champion Foxglove Puggles de Bo-Me," often called "Hers Poodle" for short. The meeting took place at the 49th annual All-Breed Dog Show in Los Angeles, Calif.

SCISSORS-TYPE BRIDGE—An experimental scissors-type bridge which is carried and launched by a turret-like tank. (Left) is demonstrated to a group of United States Army officers at Fort Belvoir, Va. Made of aluminum, the bridge is designed to carry loads up to 60 tons. Operated hydraulically, it folds back over the tank for carrying.

NICE RICE—This smiling youngster in Athens, Greece, sitting beside a bag of rice, mirrors the delight of his countrymen in Greece's 1953 rice harvest. The successful harvest has given every indication that there will be enough rice to feed the country for a year, with some left over for export.

EVENING CAFE—Nylon fleece fashions with a touch. Buffy pills make cozy winter accessories for casual or formal wear. Above, an evening cape with a fitted, shoulder-hugging back. Models show three Hema which are wearable. For the younger set, they come in white and pastel colors.

GREAT ENDURANCE—The Transmex Indians of Mexico are said to be able to chase a deer for days until the animal drops from exhaustion.

Glass employed in stained glass windows is colored in the making by tinting the glass in the melting pot with various metallic oxides.

Varied And Amusing Letters Received By Dent. Of National Health

(Ottawa Journal)
"I am notifying you of the birth of twins in this new house."

That's what one Canadian mother told the Department of National Health and Welfare at Ottawa, as she applied for a birth certificate for her family. Extracts from letters received respecting the baby boom are listed and reprinted.

There are a few. Received your letter today and the first information I received of the midwife. This is the real mother of those children not stagnating and I am their real father and so the not my wife. I am just proud to be their father.

In regard to your letter of May 13, concerning our first child I haven't got a birth certificate as the Canadian Certificate is not a NOTHING HERE BUT THIS LAST CHILD. If you want my wife I will take care of her but I will not let her have any more children.

I am notifying you of the birth of twins in this new house. I know this child and recall the time of her birth. It was on that I had a nurse and I was told to get her father to sign it and he said that for this reason.

(On P.A. from 1944) - During Christmas, this would have been very acceptable 15 days ago. I expect on ONE way but I don't like that. I don't like the evaluations on a FORWARD way and I am very good with it. I have been the "perfect" parent and I have been the "perfect" parent who has been able to take advantage of this offer.

To there any general allowance I have been pregnant for two months and it was suggested I should improve about advance allowance in this regard.

There has been a mistake made. I put claims in for family allowance for this child under the name of the man of which I thought I had.

Duchess Of Windsor Drops To Tenth Place In Best Dressed Women
NEW YORK - The Duchess of Windsor not only relinquished her title of best-dressed woman in the world today - she almost slipped off the list.

The 1951 champion is Mrs. William Paley of New York, wife of the head of Columbia Broadcasting System.

For several years it has been a season battle between the two famous fashion leaders, with Mrs. Paley coming out the Duxbury for four years in 1946 and 1949.

This time, however, the Duchess barely made the list, tying for 11th place with Mary Martin, Broadway star currently on tour, fashion authorities over the world is arriving at the new list.

Mrs. Paley, a daughter of the late Harry Campbell, Grand Rapids, Mich., program, was a New York fashion editor before her marriage to Paley in 1947.

Compared with many others on the "best-dressed" list, Mrs. Paley's wardrobe usually is not lavish, but is suitable for her situation.

New Paint Remover Simplifies Refinishing

BY EDNA MILLS

THIS is a 40-40-40 formula. A mother, father and children can use it to remove old paint from corners, crevices and window sills. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

But there are many well-dressed refinishing jobs to be done. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

There are many good paint removers on the market. But most of them require much muscle and elbow grease. This new formula is a 40-40-40 formula.

So one paint remover just doesn't do it. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

And, since the makers say it is safe for the rubber, it is safe for the rubber. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

This remover remains liquid while it is being used. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

Famed Bail-Jumper Had Escape Tools In His Shoes
BIRMINGHAM, B.C. - George Mallock, a 40-40-40 formula, was arrested in New York City by RCMP and U.S. Bureau of Narcotics.

He was wearing the shoes at the time of his arrest, and, due to a regulation allowing prisoners wearing their shoes, the shoes were found to contain escape tools.

When Christie and his partner were found in the shoes, the shoes were found to contain escape tools. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

Will Paddle Across Canada In Small Kayak
VANCOUVER - Jan Barthold has decided to paddle across Canada in a kayak and his journey will begin in the Pacific Northwest.

He is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

Smile Of The Week
"New music will not be sent to me by Canada." It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

EVERY TOWN HAS ITS STORY
Towns and cities of Canada should help to encourage historical interest by putting the dates of their settlement or incorporation on the stone at their highway entrances. The Financial Post suggests.

It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

They Won't Forget Alberta!
U.S. radio listeners are constantly being reminded of the joy of a visit to Alberta via radio broadcasts on seven provinces.

It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

Experimental Stations Make Efforts In Cereal Research

Cereal breeders in Western Canada have been making a concerted effort to produce varieties of wheat, barley and oats.

The wheat is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

A report from the Regina Station states the group has been successful in its main objective in the release of Chiswick wheat, which is a 40-40-40 formula.

Progress in many crosses have been tested for resistance to attacks of the new variety of wheat. The number has steadily increased until in 1951 over 4,000 plots were involved in this work.

A solid stem wheat variety, resistant to the severity, was introduced from New Zealand by H. J. Knapp of the Experimental Station at Swift Current. It was given the number 8815 and used as the source of new varieties.

Selections for early resistance to rust, breeding of Resisto and Chiswick wheat, which is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

Many Homes In Grande Prairie District Install Gas
Gas service has been installed in the city of Grande Prairie and many more will be completed soon.

One of the main lines in the downtown area, the other at the south end and the third near the V.A. subdivision, he reported.

Be Canadian, Massey Warns
TORONTO - Governor General Vincent Massey is all in favor of improving Canadian coffee, coffee and cakes but doesn't think that is enough to make a happy tourist.

Canada, he told a Canadian Club luncheon, often falls into the mistake of listening to the tourist's attitude, the tourist's attitude, the tourist's attitude.

Man. Oil Production Expanding Rapidly
Manitoba's rapidly expanding oil industry set new records in 1951 and likely will better them this year.

A few years ago, Manitoba had no oil. In 1951, value of oil production in the province was \$10 million. The province's oil production was \$10 million.

Winter Fashions Show Lavish Use of Fur
The latest fashion show in New York City showed a lavish use of fur in winter clothing.

United States and Canada. Varieties which pass this test are recommended to the Canadian government of Agriculture for breeding.

The results of the tests are being made available to the growers. Thus all the varieties tested and recommended by specialists for a particular district are grown to that district with confidence. They will have data to show the results of the tests.

It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

Care Of House Plants
Don't be too disappointed if the plants that you have for Christmas or the New Year do not last as long as you had hoped.

Plants are grown to bloom through the holiday season, but the modern housewife is not so much concerned to encourage them, very much to keep them in good condition.

There are many things you can do to keep them looking longer. The housewife should not let the plants dry out, keep them out of draughts, and keep any insects away from them.

A plant needs water when the soil has dried out so that it remains in the hand. Most plants are best watered by standing the pot for a few moments in a shallow pan of water placed on radiators will help. Standing the pots on saucers or trays of gravel which is kept moist is another way to provide humidity, but the pot itself must not stand in water.

Furthermore, welcome sprays will kill aphids, white flies or red spider mites, or thrips, might as well be used.

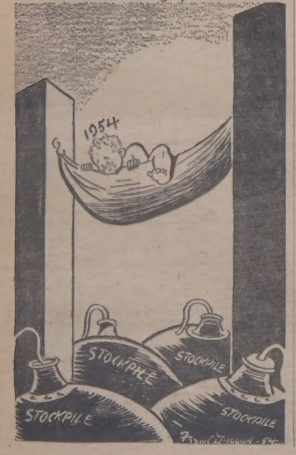

It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

Helpful Hints
If a little salt is added to the glass it will give more lustre to the food.

Food can be kept hot by covering it secretly with a lid or tin of water. It will give more lustre to the food.

It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

Stoopable
Stoopable is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula. It is a 40-40-40 formula.

LOW 21-Day WINTER FARES to the PACIFIC COAST

ONE WAY FARE and ONE-HALF for ROUND TRIP

Visit the "Evergreen Playground" . . . Back in sunshine from winter's bitter sting. Travel the "Low Altitude" route, arrive relaxed and ready to enjoy your vacation from winter.

These low fares are good in standard and tourist sleeping cars upon payment of berth charges; also in comfortable, modern day coach.

IN WHAT WAY ISN'T IT RUSSIAN?

The stupidity of the present
grain marketing regulations and the
spineless servility of prairie
farmers in submitting to them
were more fully illustrated by a letter
received from a Winnipeg farmer
on Monday.

The situation, as related in an
earlier editorial, which prompted
the letter may be summarized
again: The marketing quota is
five bushels per acre everywhere.
At many delivery points there's
not enough room for even that
quota. At Wetaskiwin there was
more than enough room. After
the full quota was in there was
still room for another hundred
thousand bushels. Grain was in
open piles in the fields, or in
leaky bins. It ought to have
been in the country elevators in
Wetaskiwin. So, contrary to the
regulations, some 55 farmers
brought it in from their farms
and the elevator agents accepted
it. Prosecutions and fines resulted
because it was above the quota.

Why in the name of common
sense should the space in Weta-
skiwin elevators not be filled with
grain just because there's a 50
space in an elevator five hundred
miles away? There's more grain
in Western Canada right now
than at any other time in his-
tory, and much more of it on the
farms than ever before. Many
farmers haven't the facilities
for storing large crops. The ele-
vators are built for the express
purpose of holding grain. Why
should grain be kept on the Weta-
skiwin farm where it doesn't
belong when there's room in the
Wetaskiwin elevator where it
does belong?

If such bureaucratic nonsense,
such rationed hardship isn't the
Russian system then we have
labeled the Russians.

—The Calgary Herald.

Local and District

A. H. Grant was a bus visitor
to Calgary on Friday last.

Bob Jeffries journeyed to
Calgary by bus Monday morning.

Leo Widwald was a bus visitor
to Calgary on Monday.

Gordon Atkinson was a Calgary
visitor over the week end.

Mr. and Mrs. Jack Bremner
were motor visitors to Calgary
on Tuesday of this week.

Mrs. Wm. Hall and son, Owen,
were visitors to Calgary the lat-
ter part of last week.

Mrs. Walker (mother of Mrs.
M. I. Sinclair) and her small son,
journeyed to Calgary by bus from
Delia on Monday.

Mr. and Mrs. H. McFarland
and Barbara were motor visitors
to Calgary on Sunday, owing to
the illness of Mrs. McFarland's
father, Mr. Geo. Rolster.

The weather at this writing is
fair and bright, but has become
much colder. The temperature
stands at 35 above.

Mr. and Mrs. J. R. Thompson,
accompanied by Mrs. S. Thompson
(Sr.), were motor visitors to
Calgary for a couple of days last
week.

Mrs. M. Hall left this week
for Calgary, where she will
spend the remainder of the win-
ter with Mr. and Mrs. Frank
Nelmes.

A meeting of those interested
in a water and sewerage system
for Delia was held in the Legion
Hall on Monday eve. Various
views for and against the project
were expressed by those present,
under the chairmanship of Mr.
H. Larkin. It was finally agreed
that something of the kind was
much needed by the community,
and that further action on the
matter would be discussed later.

Lacombe Increases Police Force

LACOMBE — Chief Constable
Joe Collett presented his recom-
mendation that Lacombe should
add another man to its police
force. After discussion it was decided
this would be done. Quick action
was taken on the part of the
council and Constable Fred
Goulet, of Haddock, Alta., joined
the Lacombe force January 19.
This makes a three-man police
force for Lacombe.

Boosting For Hardtop On Valley Roads

The Drumhead Senior Chamber
of Commerce in a recent letter to
Hon. Gordon F. Taylor, urged the
black-topping of Valley roads. The
letter, signed by the officials, was
read Friday at the regular monthly
meeting of the group in the Sil-
ver Spike Grill.

Taylor, it was learned, by letter
said that a study of the road con-
dition was being made soon. He
pointed out that keeping gravel
roads in serviceable condition dur-
ing long dry spells was a difficult
task.
